100% 'very satisfied' and would recommend

“Engaging, Practical and Cohesive”

I found the content and delivery very engaging. I liked how Leanne provided resources, tools and take away messages that myself and attendees could incorporate in our lives. It also helps to understand concepts when real life examples are provided. Leanne was able to incorporate relevant examples to a university professional staff audience, as well as incorporating material from the session prior to hers. This connected the sessions and created cohesion. I also enjoy a bit of humour which was injected well at the appropriate points.

“A Standout Session”

Leanne's workshop on Curious Questions and Unconscious Bias as part of the Social Impact Fellowship was a standout session. Her ability to read the room and truly understand the needs of the group created a welcoming and inclusive atmosphere. She has a knack for breaking down complex ideas into clear, relatable concepts, making them easy to understand and apply to the specific context of work in Social Impact. This session was important and much needed in the Social Impact space where there is an abundance of well intentioned work happening, but less awareness of how unconscious bias and empathy can influence its effectiveness. Leanne did a stellar job of getting the message across in a fun and accessible way.
